Appendix No.4

**Proposal for promotion of Local Business
Development**

4.1

Promotion of Local Business Development

During the tenure of the prospecting Licence, and later mining operations within the prospecting area, the company will promote the local Business by purchasing readily available consumables from the local suppliers within the nearby villages and the district Business centres in North Western province.

Though a few members of the local community will be employed at prospecting stage, a positive impact is expected toward development of local Business and entrepreneurs, as demand for supplies for supplies will stimulate local Business growth within the area.

The following supplies among other things will be required from the local market:-

- Food stuff & beverages
- Groceries & Toiletries
- Fuels & Oils
- Protective Clothing
- Stationary
- Lodging services
- Motor spares
- Plant & equipment spare parts
- Transport service
